Wellness Clinic health care	912-264-3236	HIV/AIDS counseling and free

DISABILITY / MEDICAID

Begin at DFCS (262-3200) IF: you are over 65 or blind, or if you have been turned down by Social Security. Take proof of ineligibility at Social Security. In some cases DFCS can assist on a month by month basis if you have been hospitalized or have unusually high medical bills over a short period of time. Ask about their “hospital Medicaid” or QMB / spend-down program. There are **many** different kinds of Medicaid.

In other cases, begin at Social Security (1-800-772-1213). Call and make an appointment. Terminal patients with a short life expectancy can ask for “Teri-case status” and they will be given preferential treatment. (You will need written verification from your physician in order to be classified as Teri-case.) It will speed up the process if you have your medical records available at the time of your appointment. Your eligibility worker will need specific medical records, such as lab results, reports from surgery, pathology, and other specialties. They will need medical proof of your diagnosis. If you are turned down for help, which is very common, you have the right to appeal the decision within a limited time period. If you are approved for disability, you will still need to apply for Medicaid.

DOMESTIC VIOLENCE SHELTERS / COUNSELING

Domestic Violence hotline	800-799-7233	
Glynn Community Crisis Center how to	912-264-4357	Call Crisis Line and get instruction on proceed. If full, you’ll be referred to closest shelter with availability. (aka Amity House)

NURSING HOMES/ HEALTH AND REHAB FACILITIES

Medicare will often pay the first month or so in a nursing home if the patient transfers from a hospital after a three night stay and receives some type of skilled therapy. Some nursing homes will accept a patient whose Medicaid application is pending.
